

Jusan Call Bill Analysis 24, 32, 64, 128, 255 Extensions

The Tax Line is a stand-alone call accounting and billing system specifically designed to fulfill the requirements of small and medium sized companies, hotels, clinics and serviced offices.

The Tax Line stores complete details of both incoming and outgoing calls for later processing and analysis in a wide range of reports. Conveniently sized, easy to install and to operate, TAX-LINE is equipped with powerful cost calculation and call memory capacity combined with a comprehensive set of tariff databases, turning your telephone system into a powerful cost management tool.

It is a "all-in-one" unit incorporating an integrated thermal printer, keyboard and display, and which connects to the RS-232 port of any PBX (2m serial cable provided).
